

Required Student Vaccinations

Make sure your child's vaccinations are updated this summer before the first day of school. Please bring in a copy of the updated immunization record by the first day of school!

The following charts tell where your child needs to be on the immunization schedule for his/her grade level and age. Exemptions for medical, religious or personal beliefs may be requested through the school health office.

School age children need to have the following vaccines upon entering preschool:

Preschool – Ages 3-5

DTaP	Polio	MMR	Varicella	Hepatitis B	Hib
4	3	1	1	3	3-4

Make sure your child gets his/her boosters before entering into kindergarten:

Kindergarten entry (age 5) – 10 years old

DTaP	Polio	MMR	Varicella	Hepatitis B	Hib
5	4	2	1	3	3-4

Your child will need to have two more vaccinations at 11 years old or upon entering sixth grade:

Sixth grade – 11 years +

DTaP	Polio	MMR	Varicella	Hep B	Hib	Tdap	Meningococcal
5	4	2	1	3	3-4	1	1

Failure to provide up-to-date immunization records could delay your child's entrance into school. (Arizona Law #R9-6-702)
